

Campers will learn about the importance of Shoreline buffers and participate in a shoreline restoration project; study the status of wolves and wolf ecology in northern Wisconsin; study and gather water quality of local water bodies according to Water Action Volunteers (WAV); survey for invasive species; by canoeing the Manitowish River develop knowledge on bat ecology; net, band, identify and collect data on local bird species; and participate in group initiatives throughout the weekend to improve and maintain teamwork and communication skills.

Citizen Science Monitoring is a new paradigm for increasing science knowledge and science literacy through large scale aims of data-centered citizen science programs that include impacts on stewardship and conservation, a knowledgeable and empowered citizenry, and responsive science.

**Camp is Free thanks to the following sponsors:**

**Iron County Land Conservation Department**

**Mercer DNR**

**Vilas County Land Conservation Department**

**Ashland County Land Conservation Department**

**Price County Land Conservation Department**

**Oneida County Land Conservation Department**

**Discover Us!** Discover the wonders of the North Lakeland Discovery Center. Located in the heart of the Northern Highland-American Legion State Forest, this playground of more than 225,000 acres contains numerous lakes, forests, streams and trails. We strive to provide our guests and members the opportunities to participate in programs that sharpen outdoor skills and enhance appreciation of our natural environment.
